

WEALTH IDUWE

An experienced software engineer with +4 years of experience, in frontend development (React & Angular), and less than a year in backend development (Node, Express & MongoDB). I write readable, reusable, scalable, declarative codes with strict compliance to best practices and understand every stage of project's cycle from design, development, testing (unit & end to end), and deployment to different environments. With my vast knowledge of CSS I can implement pixel-perfect UI designs with a great deal of responsiveness.

Well-versed with key concepts such as web accessibility, testing, DOM manipulation, DOM traversing, event delegation in target, capture, and bubbling phases, pure functions, web APIs, functional programming, object-oriented programming (OOP), async programming (promises and reactive approach using rxjs observables streams).

Worked with Remita Payment Service Limited (Financial Industry) as a frontend engineer, where I built internal solution called Admin console with over 80% slash in processing time of business request, maintain legacy projects and was a key part of the team that developed from ground up an enterprise fintech application called RemitaAgent.

Currently wealth works with vendease africa as an frontend lead (Angular), He drives conversations during technical refinement, reviews code implementation and drives deployment to different environments and contributes to projects, particularly super app (e-commerce and Restaurant Management System) using angular 16 (standalone architecture).

Familiar with collaborative tools; Postman, Git, Jira, Figma, Docker, IDEs, Debuggers(browsers and Ndb), Meet, Zoom, and Teams.  
Competencies: JavaScript, Typescript, React, Angular, Next, React-query, Jquery, Node, Express, NgRx, Redux, Firebase, HTML CSS, SCSS, JWT, Tailwind, Bootstrap, Docker, GIT.

EXPERIENCE	
05/2024 Till Date	<div><div>Vendease Africa</div><div>Lead Frontend Developer</div><div>Technologies used: Angular, Typescript, SCSS, Docker, NGRX, JWT, Tailwind</div></div> <div><ul style="list-style-type: none"><li>Implemented Layouts, responsive pixel perfect figma designs, fit for all device screen breakpoints (mobile, tablets, and desktop).</li><li>Integrated APIs on our frontend Angular with good error handling.</li><li>Reviewed code of other engineers PRs and recommended better ways to implement features, without trading off performance and security.</li><li>Reached story point completion rate consistently of 100% except for tickets with external blockers.</li><li>Implementing refined product features according to PRD.</li><li>Offer technical assistance through coding session to team members to close out sprint tickets.</li><li>Raised Deployment Request (DR) accross different environments (staging and production) after sprints.</li><li>Training interns on fundamentals and best practices of frontend technologies; and assisting them in reviewing &amp; debugging their solutions.</li></ul></div>
07/2023 04/2024	<div><div>Volunteer</div><div>Frontend Developer</div><div>Technologies used: React, Next, Angular, Javascript, SCSS, Docker, NGRX, JWT, Bootstrap-4, Jest, Tailwind, Node, Express, MongoDB, React-Query</div></div> <div><ul style="list-style-type: none"><li>Working volunteeringly with ministry IT team for application performance and features.</li><li>Built Wallet application using Angular 16, Node, express, mongoose and MongoDB</li><li>Built Hotel Bookings application using Next js, MongoDB, Mongoose</li><li>Building Maintenance management application using Next.js, cloudinary, MongoDB, Mongoose</li><li>Implemented responsive pixel perfect figma designs, fit for all device screen breakpoints(mobile, tablets, and desktop).</li><li>Implemented responsive pixel perfect figma designs, fit for all device screen breakpoints(mobile, tablets, and desktop).</li><li>Designed API and integrated on the client side</li><li>Form validations, submission, and error handling.</li><li>Mentoring newbies on frontend technologies by holding short sessions and reviewing code.</li></ul></div>
02/2022 06/2023	<div><div>Remita</div><div>Frontend Developer</div><div>Technologies used: Angular, Jquery, Javascript, JSP, Jasmine, SCSS, Docker, NGRX, JWT, Bootstrap-4</div><div><i>During my last performance appraisal session I was graded 92% by my Line Manager (Team Lead) for exceptional contributions.</i></div><div><i>Developed an internal solution (Admin Console) with roles and permission features that drastically reduced the processing time of client requests, even over the weekend by 80%. It modifies records on the database using dynamic forms and stored procedures that executes SQL queries.</i></div></div> <div><ul style="list-style-type: none"><li>Implemented responsive pixel perfect figma designs, fit for all device screen breakpoints(mobile, tablets, and desktop).</li><li>Implemented web accessibility principles with accordance to WCAG 2.1 across web application.</li><li>Integrated APIs on our frontend Angular and javascript applications using JSON Web Tokens(JWT) and cookies.</li><li>Form validations, submission, and error handling.</li><li>Built more reusable components (modals, tables, clipboard, inputs, password-validators) across our angular frontend for easy debugging and testing</li><li>Maintained two legacy projects (payment gateway, payment/collection web-application) by debugging, refactoring and implementing new features</li><li>Implemented i18 language translation feature and geospatial/geo-location map representation on our angular frontend</li><li>Completed all assigned timely at the company's project live hackathon 3weeks coding camp;</li><li>Migrated UI elements into newly built reusable components, and migrated projects into mono-repo architecture using Nx</li><li>Delivered three practical live coding demo for frontend team, and management to update them on projects status, and newer technologies.</li></ul></div>

SKILLS

Computer Skills

MS Office, linuxOS, MacOS, Windows, npm, hardware, software development, social networking,

Interpersonal Skills

Public speaking experience through seminars, presentations, can clearly express ideas and information, write in a clear, concise, and consistent manner, excellent proof-reading skills, script writing, content writing, proposal writing.

Speaking and Writing Skills

Verbal communication & non-verbal communication, writing documentations, Listening, assertiveness & decision making.

Research and Analytical Skills

Excel in analyzing and adjusting work procedures for maximum efficiency, effective in analyzing data, excel with little information.

Organizational & Planning Skills

Punctual and efficient with time management, highly detail - oriented, can work with little or no supervision, self-coordinated, dutifully organized, sensitive to deadlines and readiness to relocate.

Multitasking Skills

Able to demonstrate competence in many areas, effectively cope with accelerating change, displays excellence at every task and displays calmness under pressure.

Leadership Skills

Inspire confidence and respect among coworkers, promote harmony and teamwork, teachable, projection of feasible goals,

	<ul style="list-style-type: none"><li>Training interns on fundamentals and best practices of frontend technologies; and assisting them in reviewing &amp; debugging their solutions.</li></ul>
01/2021 12/2021	<p>Zuri Chat</p> <p>Frontend Developer</p> <p>Technologies used: Angular, Javascript, NGRX, JWT, Bootstrap, Tailwind</p> <ul style="list-style-type: none"><li>Implementing pixel perfect figma designs, fit for all device screen breakpoints.</li><li>Implemented app-wide state management using Ngrx store, effects and actions</li><li>Integrated APIs on our frontend React application using JSON Web Tokens(JWT).</li><li>Make PRs on approved tickets and resolving conflicts locally and on the hub using GIT.</li><li>Collaboration with UI/UX designers, backend, and other frontend developers on group tasks using gitHub, zoom, google meet to deliberate on tasks remotely.</li></ul>
07/2020 01/2021	<p>Auntie Network Project</p> <p>Frontend Developer</p> <p>Technologies used: React, Javascript, Redux, Bootstrap, JQuery</p> <p><i>I got a financial tip three weeks from resumption for debugging react application and fixing bugs on the profile state and multiple image uploads feature.</i></p> <ul style="list-style-type: none"><li>Completed frontend tasks; implementing pixel perfect designs, consuming rest APIs, improving user experience on all devices through mobile responsiveness.</li><li>Worked on the chat component and integrated APIs using web-socket for real-time messaging.</li><li>Monthly career seminars on tech-related subjects.</li><li>Collaboration with other engineers on group tasks using gitHub, zoom, meet to discuss tasks and available tickets.</li></ul>

EDUCATION	
10/2010 05/09/2015	<p>Federal University of Agriculture, Abeokuta</p> <p>B.Eng - Bio-Resources Engineering.</p> <p>Second Class Upper Honors</p>
10/2006 05/03/2008	<p>Lagos State Model College Kankon</p> <p>Senior School Certificate Examination</p>
07/2004 05/03/2006	<p>Igbobi College Yaba</p> <p>Junior School Leaving Certificate</p>
PROFESSIONAL COURSES	
	<p>Udemy</p> <p>Angular-The Complete Guide(2022) by Maximillian Schwarzmuller</p> <p>Advanced CSS and Sass: Flexbox, Grid, Animations by Jonas Schmedtmann</p> <p>Learn Modern Javascript (Zero to Expert) by Jonas Schmedtmann</p> <p>Node Js Express, MongoDB and More: The complete bootcamp 2023 by Jonas Schmedtmann</p> <p>Next.JS &amp; React; The complete guide 2023 by Maximillian Schwarzmuller</p> <p>Introduction to Web Accessibility WCAG 2.1; by Ross Mullen</p> <p>Pluralsight</p> <p>JavaScript Objects, Prototypes, and Classes By Jim cooper</p> <p>Javascript promises async programming By Nate Taylor</p> <p>React: Getting Started By Samer Buna</p> <p>Building Applications with React &amp; Flux By Cory House</p> <p>Ustacky</p> <p>Frontend Microdegree</p>
CERTIFICATIONS	
	<p>Google Africa Developer Training Program</p> <p>Google Developers</p> <p><i>Certificate No: 08gA398DC019A8D</i></p> <p><a href="#">Certificate Link</a></p>
